The metal in which the coins are struck is indicated thus:—

N = gold, *Æ* = silver, *Æ* = copper or bronze.
El = Electrum (an alloy of gold and silver).
Bl = Billon (an alloy of silver and copper).

Care is taken to describe accurately the condition of coins and medals, using the following scale: *Extremely fine, Very fine, Fine,* and *Good*. Where no condition is stated it may be assumed that the coins and medals are not in good condition.

INTRODUCTION

We take pleasure in presenting this, the third in a series of catalogues of outstandingly fine collections of rare gold coins of the world. The attention of collectors is drawn to the German, Italian and Netherlands sections, which, on this occasion, are strongly represented.

The numismatic importance of the coins now offered is such as to arouse considerable interest in both Europe and America. In this connection it is worthy of note that, since the American collector is now casting his net more widely, prices will show a tendency to rise as time passes. This fact is commended to the consideration of collector and investor alike.

Included in the catalogue for the first time in this series is a particularly fine selection of European silver. This widens the appeal of the catalogue to a larger collecting field.

The many rare pieces are too numerous to list, but all are illustrated on the plates. Perhaps the outstanding coin in this collection is Lot 305, the 6 doppia of Ferdinand VI Gonzaga of Mantua.

PRICED CATALOGUES

Coins

AFTER each sale these catalogues are issued with the prices realised printed in the margin opposite each lot, thus giving at a glance a reliable guide to values.

The final test of value must always be auction prices rather than the figures given in books of reference for changing times and fashions soon render the latter obsolete and misleading.

On the average we issue twelve Coin and Medal catalogues a year, some of which are usually of sales of important collections The **priced catalogues** are posted to subscribers as soon as ready, usually about a week after the date of sale and the subscription is . . . .
